Kenan Kadric Just wondering, if australia was to ban gays, where does it stop? What's to stop the govt from saying "I dont like the way that asian guy looked at me, all asians are to be deported out of the country or face death". Hatred begets more hatred, once it starts there is no stopping it.

Nenad Nele Arcaba Ur right , it wouldnt... agreed but wouldt u rather live with asians , indians , africans , samoans , lebanese etc people who r normal... and should all b equally treated in this country no matter the coolour of skin or gays, pedofiles and rapists... as gays r put in tht group of sicknes?! ...

Rebecca Adams Its posted on the Gay Marriage Rights Australia page. Its time to wake up, open your mind, and maybe learn how to spell while you're at it. There is nothing wrong with being gay. Its the same as being hetersexual just attracted to the same sex not the opposite sex. And how did i threaten you ?

Rebecca Adams I posted a comment and you exaggerate for some attention. You are receiving attention for being such a homophobic idiot not for any good reason. Your mother should have swallowed you birth.

Alexander Van Der Steen europe is one of the most gay tolerant regions in the world (western europe anyway)
people like you are what's wrong with the country, gay people aren't filled with hatred and intolerance, gay people are just trying to live their lives, how about you focus more of your effort into making the world a better place rather than making immature comments about a rainbow crosswalk and how much you hate people for something they can't change.

Rebecca Adams I messaged "Your homophobia makes you a disgusting person. I had to say. Its posted on a like page and says how ignorant you are. Open your mind. We don't need people like you taking up space." NO threats there.

Hudson David Carrad So your "logic" is that gays are pedophiles (despite, from a study I read over 90% of pedophiles identify as being explicitly heterosexual) and that a priest in a Eastern Europe would tell you so.

More importantly, Australia is /not/ Serbia, and as such, trying to force outdated, backwards views on the rest of us, I highly suggest you reconsider your value system.

Nothing Rebecca has said could remotely be construed as being threatening, if anything, what you have said, Nenad, would be considered a threat. Though, if anything, you are a brilliant case of why post-term abortions should be an option.

James Stephenson How is inciting to massacre homosexuals in the way the Nazis (not naziz, just pointing that one out) massacred the Jews "just stating your opinion"? Although I do think it is good of you to compare yourself to Hitler so that nobody else has to.

Nenad Nele Arcaba lol.! You guys must b gay , thts y ur hatin on me.. as for being gay - pedophile - or a rapist.. it is in a way a same sickness od abnormalnes u carry!

Rebecca Adams You posted hate about a group of people. You said gays are pedophiles which shows you are largely uneducated, misguided and mislead in any actual truths and facts about homosexuality. Homosexuality is not a choice, not a disease, and there is nothing wrong with homosexuality. If you care so much and are disgusted (or discusted as you posted) then you are the one that has the disease, the problem, intolerance and are contributing to the hatred in the world. Gays, lesbians, bisexuals etc are normal people like straight people who happen to like the same sex and/or both sexes if bisexual. Its not hard to become educated and informed on that. Homophobia is the only disease and unfortunately refusing to see nothing is wrong with gay and lesbians makes you the ass hole. I spit on your entire existance.

Anton Maz Nenad. Your attitude and outlook on life is a festering turd but I can live with it. After all Australia isn't short on uneducated douchebags like yourself. However what I do find so offensive is your complete lack of understanding concerning the basic principles of spelling and grammar. Furthermore we are all aware the the Orthodox church has got as many paedophiles working within it as the Catholic Church. You'd be much safer hanging with the gays and lesbians than your holy men.
